

CSR Group's "Contact Patch"

Greetings!

The Beginning

From David Love's notes: "...CSR Group saw its beginning in Gordon Mills' living room in 1968 during a game of "Automotive Remember when". The players were Gordon Mills, Dave Burch and me...A date was set for a September event at the old Vacaville track. Five cars showed up for that first event; an Allard J2x (Don Kerson), Ferrari competition S.W.B. Berlinetta (Joseph DeMartino), Ferrari 250 Testa Rossa (David Love), Huffaker Knoop Special (Larry Maatz), and a Maserati 300S (George West). This first event consisted of rides, laps at speed and exchange of rides. At the end of a full exciting day a meeting was held and our first mailing list compiled.

Remember our history & our purpose: Join us at the David Love Vintage Races, April 6-8. For details, go to the DLVR website by

CSRG Annual Membership Meeting

If you were there, you had a great time. If you didn't attend, well....you missed a great time.

A Note From the First Carl Moore Award Recipient

At the recent CSRG annual meeting CSRG introduced a new award for persons who have gone beyond the call of duty in helping, supporting and running the organization. It is named the Moore Award and I am very honored to be the namesake and the first to receive it.

CSRG has been a big part of my life and racing hobby for 38 years. I have been fortunate to be able to own and race some of the cars I only dreamed about driving back in the early 60's when I was running my Lotus 7A. CSRG and its founders created an organization back in 1968 that offers drivers of various skills to compete at a level they are comfortable with and to do so in a relatively safe environment where competitors respect the value and history of the cars. CSRG has been a stalwart for preserving the cars in their original configuration, which can be a challenge for the club and the car owners. Probably for me the cars and the friendships have carried equal weight in my staying active in the club in various rolls over all these years. My wife Judy has

said many times, if I retire from driving I will probably lose half of my friends, and she is probably right. It's always fun to see some of my friends at least 4 or more times a year at the races. Most of us have other activities that keep us busy in other places, but we do get to say hi and chase each other around the track in a vigorous fashion.

So, my thanks to the Board of CSRG for creating this award in my name and for doing it while I am still on the top side of the track. That way I will be able to see the next recipients of this special award. I know there are many others who are in line for this recognition.

Cheers,

Carl

Carter Alexander Trophy Awarded to Andrew Wait

Had he raced in the 20s & 30s, Andrew would have been one of the Bentley Boys. A rabid enthusiast of anything mechanical---he flies, has three race cars that he runs with CSRG, karts & he races with the SCCA. He has brought a bunch of people into the club & helped them quickly find their way. Well done & congratulations to Andrew.
